

# EVALUATION

**When writing evaluation reports, remember that you are reflecting upon what you have learnt about designing and making as a result of your project. Write a sentence or paragraph about each of these questions to produce your final report. Use sketches or photographs to support your statements.**

- Does your solution do what it is supposed to do and is it reliable? (Function)
- If not why not?
- Is it easy to use?
- Describe your products look, shape and form.(Appearance)
- Did it turn out the way you wanted?
- Are you happy with the finished product?
- What changes did you make to your design?
- Why were the changes made?
- If you could make it again what other changes would you make?
- What difficulties did you come up against when making your product?
- How did you overcome them?
- Did you choose the best materials for the project?
- How did you manage the time available for this project?
- Could you manage your time more efficiently in future Projects?
- Test out your product in the most appropriate way.
- Gather the opinion of your client.
- What would be a reasonable selling price?
- Are there any environmental concerns?

**In summary your evaluation report should look critically at your designing & making, and which examines the strengths, and weaknesses and suitability of your final project.**
