

THE FIFTY PENCE BAND

I have used the stencil font to give an army influence to the bands imagery.

I have replaced a band member with a picture of myself, to create a new band.

I have created a band image icon of red lines on yellow to carry across all materials. This will create a theme.

I have included the tour date, time and venue.

I have used a simple contrasting colour theme.

I have used a rocket icon to match the fast beats of the bands music.

I have used the same colour scheme across the CD and the ticket.
